IT seems at last that the BABCOCK case is to undergo an investigation and we hope it will be rigid and thorough-in the words of President GRANT: "Let no guilty man escape," The country demands that President GRANT shall clear his skirts of these whiskey frauds. There has been too much of the whiskey flavor around the White House ever since GRANT's inauguration, but the dignity of the nation demands that the President's household shall clear themselves of the odium of these whiskey steals.

THE Democratic Sheriff of New York undoubtedly was criminally negligent in allowing TWEED to escape, and we look for his prompt trial by the new Democratic District Attorney and Judge. Denunciation comes with a bad grace, however, from the Eastern Republican papers, when it is so well known that President GRANT has pardoned scores of election repeaters, postoffice thieves, revenue robbers and plunderers of the public

Safe and Unsafe Banking.

The lack of display that characterizes the merchants and bankers of England has been the admiration of observing men of all nations. The millions that are disbursed and forwarded to all parts of the world daily, weekly and monthly in a modest office and retired ostreet are in sad contrast with the gorgous gildings and mosaic surroundings of an American Bank, and which really set the solid man to thinking whether there is not more money in the show than in the vault. Our hollow, ridiculous show is a fraud on the ignorant, who are the victims. The business man is not taken in. He surveys the situation, examines the surroundings, takes an occasional look at the records, meets on change with the bright men of his locality, corresponds with able men who control finance in | Men engaged at the fifty-nine foot levhis commercial metropolis. He is not deceived with bosh-He laughs at the fraud, and heartily despises and condemns the deception. A correspondent of the disasters that have befallen these fifty feet, Town cried out to lower him the Tucson Citizen at Santa Rita, unow, the orphan, the confiding servant and he felt faint. Two men then went there have been some large nu man and woman, we invariably find this hollow display, and the criminal rascality of those at their head arises from the use of other people's money in their private speculations. While we are for protecting legitimate business, private or corporate, the legislature must be invoked to throw some the residual and a sensation of pain in the region of the back, there were no indications of his being injured. The President's Message.

The strong points in the President's Message, according to his friends, are the educational and religious parts. The President has suddenly become a self-appointed champion of education and religious freedom. Any remarks on the question of education, would seem to be out of place in a President's Message, as the school question is regulated by the States; and the constitution itself guarantees freedom of religion. Why the President should suddenly rush before the country in the defense of public education, we cannot see; as every State educates the masses out of a general tax. It is still less apparent why he conjures up the spectre of religious tyranny. But then, something had to be done to bolster up the waning fortunes of Republicanism and the Message has done it in good style. The suggestion as to taxation of church property will be widely discussed and is likely to bring down on GRANT's devoted head a host of denunciations from all sects. This part of the message is, perhaps, the most interesting to the average tax-payer and will cause the most discussion, though we believe it to be in consonance with the ideas of the majority of the American people. On foreign matters the President is conservative and dignified and the financial question is handled with considerable ability. It is the most carefully written Message President GRANT ever presented and will attract attention all over the civilized world. It discusses more than the usual number

The Campo Gang.

SAN DIEGO, Cal., Dec. 7th .- A gentleman stopped at Valley Las Vejos last Thursday night, hailing from San Josquin Valley, looking for sheep range. His name is unknown. He had considerable money with him. He rode a yellow Canadian horse, and had a Henry rifle and a heavy gold watch with a hair chain. A rifle, watch and chain answering to the description of his was found with one of the robbers who was killed in the at the Company's office at 2 o'clock raid at Campo, and as this man has not been seen or heard from since he left Valley Las Vejos it is feared he was a victim of bandits. Sheriff Hunsaker returned from

Campo this evening, from whom was obtained the following particulars of the hanging of the Mexicans on Saturday night. He says everything was quiet. No unusual excitement existed among the residents. He had gone to bed, leaving the prisoners with a guard of three persons. At about 11 o'clock two of the guard went out for a few moments, and while out the other guard was seized and bound. The prisoners were hurried away and hardly a word was spoken. Search was soon after made, and the lifeless forms of the two robbers were found pany. suspended at each end of a rope to a tree a short distance away. The authorities below the line have track of and the names of the remaining members of the gang and will probably catch them. Alcalde Gonzales will deliver them to the proper authorities if caught, on requisition of the Governor of California.

Monday there was telegraphic communication with Port Townsend, Washington Territory, and the wires remained open yesterday but no news of the steamer come to hand. The owners have telegraphed to Port Townsend to have the Oliver Walcott, Revenue Cutter, dispatched in quest of the missing steamer. There are many surmises as to what may have happened to the vessel. The most responsible of them accounting for the delay is that the porpellow has been broken, an occurence that once

did happen to this steamer. The overturning of a light kerosene lamp in the grocery store of John Cahill, No. 652 Mission street, set fire to the premises at half past 6 o'clock last eve. Thos. Pok and John Clark, sailors belonging to the U. S. S. Portsmouth, who were in a small room in the rear of the store were severely burned. Chief Scannell had them placed in a wagon and conveyed to the city prison hospital. Cahill's stock was considerably damaged. In-

At 9 o'clock last evening as J Ross Browne was proceeding from Oakland to his home in the Northern suburbs of that city, while passing McClares academy he was suddenly serzed with cramps of an alarming nature. He was conveyed to the residence of W. party. As a State paper it is peculiar, as a special plea for the Republican C. Little, near at hand. Atten o'clock no point in favor of convalescence was perceptible and a very considerable degree of alarm was manifested. Mr. Browne, who is so well and favorably known in literary circles, is now fiftytwo years of age.

> SAN FRANCISCO, 8.—The steamer Los Angeles is undoubtedly overdue in her voyage from this port to Victoria, and her owners and the friends of the passengers and crew are seriously concerned as to her safety.

Mr. Bernard, the owner of Spring Bok and Golden Gate, the former being among the horses entered for the great \$30,000 mile running race, has ordered them home. So far the order has not been complied with. Negotiations are pending with a view of inducing Mr. Bernard to reconsider his resolution. Notwithstanding the delightful weather we are now experiencing, and the prospects of a continuance of it for some time to come, there is no hope of the race coming off this year. None of the horses entered are now in training. All of them have been suffering more or less from the epizootic, and they have not yet fully recovered from its effects. If altogether.

The steamer Los Angeles is now five days over due at Victoria and nothing has been heard from her. Much uneasiness is beginning to be felt among those having friends on board. The report spread to-day that she was lost on Destruction Island, but inquiries could have been received confirming the rumor, as the telegraph has not been working North of Olympia for two days. The revenue cutter at Olympia was dispatched yesterday to cutter from here will be sent to-night on the same errand.

[SPECIAL TO THE HERALD,]

EASTERN NEWS:

Opinons on the Message. NEW YORK, Dec. 8th.-The Herald commenting on the President's message says it is in the main, sound and defensible. On the Cuban question, finances, on the question of cable monopolies, on the Mexican question; but on the religious and school questions wild, Quix tie and utterly absurd This attempt to introduce religion as a controlling element in our national polities is the most mischievous and monstrous violation of fitness and propriety ever perpetrated by a President of the United States. On the school question he anticipates Speaker Blaine's proposed amend-ments to the Constitution, and makes some very commendable propositions, but others are made to make political capital.

The Times approves the message and considers it sound on the school question. The propositions made in that connection are not within the province of Congressional legislation, The Herald considers his statement that the present message will be his last to Congress, although savoring of a renunciation of third term aspira-

tions, do not bind him in any form. The *Tribune* also says he has not made any withdrawal from the third term candidature. Madrid dispatches say that President Grant's message caused great excitement there. An informal meeting of the Cabinet was held last evening. The excitement equalled that of the

Virginus affair. The World, Democratic, believes the school question is brought up simply to secure a third term.

NEW YORK, Dec. 8th .- A number of bodies from the wreck of the steamer Deutchland has been washed ashore and some were in their last struggle. In the cabin were seen corpses of ladies and children dressed as though they had been suddenly surprised after retiring for the night. In all 140 persons were taken off by tug.

Five nuns were among the drowned. A London special says the disaster to the steamer Deutschland, occurred at 5 A. M. Monday last in a heavy gale and snow storm. Twenty-five bags of mail were recovered from the wreck. She fired rockets at intervals but owing to the gale could not be assisted. There were fifty dead bodies in the cabin besides those who were in boats. About fifty are known to have been saved. Quartermaster Beck who was rescued is dying The scene at the wreck when the boats arrived Spring Bok is withdrawn it is very probable the race will be declared off was frightful, with men, women and children clinging to the rigging.

No. 42, F. and A. M:

To the Worshipful Master, Wardens and Brethren of Los Angeles Lodge

We, the undersigned Committee, appointed at our last special meeting to draft resolutions on the death of our late Brother, W. G. Porter, a member of Winnemuca Lodge No. 19, Nevada, In contrast with its usual blue.

beg leave to submit the following: WHEREAS, Almighty God, the grand Architect and Supreme Ruler of the Universe, having in His wisdom removed from our midst forever, and taken unto himself our dearly beloved Brother, we can only through suffering, sorely and deeply lamenting our great loss, bow with submissive hearts to the mysterious flat of Him who doeth all things well.

His loss is no ordinary one, so young, having scarcely attained the prime of life: with such a bright prospect in future, long will it be felt by his bereaved family and friends and mourning Brethren of this Lodge.

He is gone, and his death is but another memento of the mortality of the body, the immortality of the soul. Beloved and honored for his worth, we warmly cherish his memory and revere the virtues which distinguished him, as a citizen and a friend. There-Resolved, That his Lodge has lost

Los Angeles, Dec. 5th, 1875.

We have been favored with a perusal of a number of flattering testimonials to Judge James De Long's pamphlet on Southern California. Among the number is one from Commodore Pickering, United States Navy, now on the retired list, but once commander of the American squadron off Tangiers Morocco, when Judge DeLong was Consul. It is such a hearty endorsement of the pamphlet and such a friendly inquiry about California, that

we publish it below: MY DEAR DE. LONG:-I thank you for your note of tenth and accompanying pamphlet upon climate, soil and production of Los Angeles. I hope you have not, in an absent mood of mind, dated your note from your old and deserted residence in Kansas from which, I had the impression, you had been driven by an army of grasshoppers to the genial climate of Lower California. You say the pamphlet will explain the reason for your change of location. Why, yes—according to the showing of that pamphlet I do not wonder that you have pulled up stakes in Independence, even without the assistance of the hoppers. After reading it, I felt myself unsettled and began to calculate the cost of emigration. If as good ashowing had been made of the game and trouting, as of the climate, soil and production, I should have been very much disturb-

This Dryer commends itself to every person who examines it. Every family who has an orchard, vineyard or garden ought to have one. It will supersede the canned fruit, as fruit and vegetables dried on this machine retain their freshness, and if soaked in water thirty minutes before cooking they are as sweet and fresh as those direct from the garden.
